Welcome to Woodrobes

Investing in a new bedroom is a significant decision, one that you will have to live with for many years, so getting it right is essential.

A bedroom you are happy with and comfortable in takes considerable thought and excellent planning.

Many of our customers find it hard to visualise just how their new bedroom will look when finished, if it will have the 'WOW' factor and the feel they are looking for.

This is where Woodrobes excels.

Our knowledgeable showroom staff will use their expertise to assist you in choosing the style and colour of your bespoke fitted furniture.

Our vast and varied range of products provides our customers with combinations of textures, styles, colours and finishes. To give our customers the best possible choice, we are constantly updating our product range with innovative new styles while embracing and including new colours and finishes when they come onto the market.

Our designer will visit your home to plan your ideas and make a working design you are happy with.

Once colours and layout are finalised, your bespoke bedroom furniture is manufactured locally, and when complete, our fitters turn your design into reality.

With an unrivalled reputation for quality, range of products and customer service our company has moved from strength to strength.

We offer one of the widest ranges of bespoke fitted furniture manufactured in the UK today and we are proud to say our products are 'Made In England'.

We hope you enjoy looking through the brochure and we hope it helps you to choose Woodrobes for the bedroom of your dreams.

Please check our website for the latest products, styles and colours that have been added to our range:
www.woodrobes.co.uk

Our 3-D software will utilise every inch of space you have.

Using the very latest 3-D design software we are able to create a realistic drawing which will alleviate any questions you may have concerning the finished look of your room.

Our experienced planner and designer will utilise every inch of space to maximise the practicality of your new bedroom so that you wake up for many years to come in the bedroom of your dreams.

3-D design is yet another significant string to our bow and enhances our ability to manufacture products of the highest quality, combined with excellent service.

Working from Home

Our flawless, high-gloss acrylic panels, are becoming increasingly popular for bedrooms, home office and en-suite bathrooms.

This premium board can be used for drawer fronts, cupboard doors, wardrobe doors, angled doors and decorative panels.

Matching bed bases with integral drawers have become increasingly popular.

Our bases can have up to four drawer units for double beds and two drawers for single beds, with solid MFC drawer boxes and luxury soft close mechanisms.

The bed bases offer a stylish and practical storage solution to compliment any bedroom.

Flush drawer front handles with a choice of Ascari, Finger Pull, J-Pull & Quartz design.

As a bespoke item the bed base can be made to suit your requirements.

Some customers prefer a higher base, making it easier to get in and out of bed.

The extra height also gives a deeper drawer system and considerably more storage.

These bed bases are an ideal addition to any bedroom system.
